Hi Steven,

I just received this email from Randy Nakamura, as you know Randy has moved to another school and has a vice principal position there. I am forwarding his email to you, please respond to him.

Thank you again for all your help last year and this year. I hope that our district continues to do business with you and your company. Your individual attention to the needs of our Burbank teachers, me and students is extremely appreciated and was very much needed.

If you ever need a formal recommendation, please let me know, I will be more than happy to do so. Look forward to continuing working with you.

Subject: Smartboards

Hi Sandra,

Our district is looking at possibly installing interactive boards into our classes. I was hoping you could put me in touch with Steven Parnell. It was a pleasure working with him last year and he really went out of his way to service Burbank. I needed to get more information and I feel he could serve a valuable resource. Thanks for your help.

Aloha,

--
