Hi, Dennis,

The comments about your session ranged from "Can we hire Dennis?" to "He was great, bring him back," to "Can we adopt him?"

We will most assuredly keep you in mind for other sessions, and thanks for the information on other workshops,

Cheers,

Cheryl
Educational Technology Coordinator
The Northwest School

Cheryl,

Thank you again for inviting me to participate in your day of professional development. I was really impressed with how well organized the day was. Please keep me in mind as you plan these types of days in the future. I would love to have more opportunities to support your teachers.

I also wanted to make sure you had the information on our upcoming workshops and our summer camp. The workshops will be at our new classroom where Alan and Tuney attended a workshop. Here are some details:

May 6, 4-7 pm, SBI Renton- This is for the basic "walk-up and use" functionality of the board.

May 7, 4-7 pm, SBI Renton- This will establish a great foundation in Notebook.

August 17-19, Snohomish- This is our technology camp. The first day will offer workshops at beginner, intermediate and advanced levels. The following days will provide mini workshops and plenty of time to create activities and curriculum. SPU credits will be available.

I have attached more detailed information and registration forms for these events as well.

Have a wonderful trip to China!
