To Whom It May Concern:

I am pleased to write this letter of reference for Saxton Bradley Inc. I have been responsible for technology and construction projects for Lakewood School District for the past 16 years and have utilized Saxton Bradley almost exclusively for their products and services.

I have worked with many companies and contractors and have found Saxton Bradley to be head and shoulders over the rest of their competitors. From beginning to end their customer service is first rate. In this day and age it seems like everyone is cutting service and support, however Saxton Bradley manages to provide that and still remain competitive.

Regarding their technology service, we have engaged Saxton Bradley to install a number of technology packages in our libraries and classrooms that include Smart Boards, LCD projectors, audio enhancement systems, and document cameras. They are organized, complete the work on schedule, and provide great training and post installation support.

I have had the pleasure of working closely with Roger Diehl at Saxton Bradley and find him to be honest, direct, and committed to his customers – just like the company he works for. We intend to use Saxton Bradley for future projects and recommend them without hesitation to anyone considering their products and services.

Sincerely,

Fred Owyen  
Director of Operations
