

H.M. Jackson Library Gets New Chairs!

"The students LOVE the new chairs," says Barbara Stolzenburg, Teacher/ Librarian at HM Jackson High School in Everett, WA.

Just six weeks ago, HM Jackson students helped unload 124 brand-new 3-position library chairs from SBI and Sauder Education.

The new furniture in her library gave Ms. Stolzenburg the opportunity to repurpose her worn chairs to the Special Education class for a hands-on work experience project. Instructor Doug Sohn's students took the chairs, identified what was broken, what could be fixed and assembled the usable parts into solid chairs.

"Daily we hear praise about the Sauder chairs from students, staff, parents and community members," said Ms. Stolzenburg. "Students find the three-position chair allows them to comfortably work on a computer, at a table or just relax. We are grateful to everyone who played a part in transforming our dream into a reality."

On-Demand Learning with *MediaCAST*

MediaCAST is a district wide solution for using digital media in classroom learning. It can deliver high-quality video and audio to every classroom and common area in the district, as well as to students and staff at home and in your community.

MediaCAST centralizes media storage and distribution, bringing new efficiency to the district. It is easy to integrate into your IT framework and is a solid investment because it serves so many needs:

- * On-demand media retrieval
- * Interactive classrooms
- * Capture video conferences
- * Morning announcements
- * Distance learning
- * On-demand digital TV channels
- * On-demand video
- * Athletics/graduation broadcasting.

MediaCAST has information and learning solutions for:

- *K-12
- *Higher Ed
- *Healthcare
- *Corporate

Contact your SBI Consultant for more information on integrating **MediaCAST** into your environment.
