Dear Friends;

Sometime between Sunday, February 14th and Tuesday, February 16th, our SBI International Truck was stolen from our warehouse in Kent.

We wanted to put out an alert so you could keep an eye out for this vehicle at job sites or on the road and if you see this truck, you will know that it is NOT SBI at the wheel.

SBI has multiple logo'd vehicles but this is our largest and is very distinctive as you can see from the pictures:

*24-ft International (our other trucks are smaller)

*Large graphics with 2 manufacturers: VS on one side and Thermo Fisher Scientific on the other (see pics below)

*Our COO, Mark Nason is featured on the back gate - on this truck he is shown standing holding up the gate (see

pic above).

If you happen to see our missing truck or have any questions, please contact Mark Nason at 425-970-6680 so we can alert the authorities working on the case and perhaps recover our vehicle.

Thank you for your help and we hope this event can serve as a reminder to everyone about personal and company safety policies.

Best Regards,

Raymond Near

SBI President
