

I wanted to let you know about some upcoming classes that Saxton Bradley will be hosting. These are great opportunities for your teachers to build proficiency with their tools during a day that will offer plenty of hands-on practice. The goal of each of these sessions is for participants to leave with something they can use immediately in their classrooms.

Friday, November 20- *SMART Notebook Level 1 for Beginning users*

- This will be held at our SBI classroom in **Renton**
- 8:30-3:30
- Lunch is provided
- 6 clock hours will be available
- This class is a great way for new users to develop a solid foundation with the SMART Board and Notebook Software. This is also a great class for any users who will be training colleagues, or who will be your "on-site" experts.
- \$150 per participant

Monday, November 23- *Using the SMART Board with YOUR Curriculum- Intermediate users*

- This class will take place in **Snohomish**
- 8:30-3:30
- Lunch is provided
- 6 clock hours available
- This class builds on the Level 1 class. It is for people who have taken that class or who are experienced users of Notebook software. The goal of this class is to integrate an existing lesson with the tools. There is also a focus on the integration and enhancement of document cameras with the SMART Board.
- \$150 per participant

Friday, December 4- *Using the SMART Board with YOUR Curriculum- Intermediate users*

- Same class as above, but offered in SBI's **Renton** classroom

Friday, December 11- *SMART Response*

- **SBI Renton** Classroom
- **8:30-3:30**
- Lunch is provided
- This is for teacher who use SMART Response, formerly known as Senteo
- This is a great class for new users of SMART Response, or for those who used Senteo and who want to transition to the more powerful SMART Response software.
- **Participants should be experienced with Notebook software or should have taken the Level 1 class.**
- \$150 per participant

I have attached a registration form for these classes. Let me know if you have any questions.

As always, you can arrange for a customized class at your own site for your staff. Let me know if you are interested in setting up a class at your school. The information for those classes is also attached.

Warm regards,

Dennis Purcell
